Experience

Aubay Portugal / DevOps Engineer

Sep 2022 - Present, Lisbon, Portugal

Leveraging cutting-edge technologies to develop and maintain automated solutions, whether it's optimizing application performance, ensuring seamless deployments, or implementing robust security measures, that empowers our team to focus on innovation and growth..

EzOps.Cloud / DevOps Engineer

Feb 2021 - Aug 2022, Remote

As we worked with several worldwide clients, mainly from the United States and Europe, communication was key, my role in the company required being responsible for introducing the client into our devops culture and methodologies, following up with technical development, aiming to meet new requirements with custom solutions leveraging the technologies at our disposal.

Bilo / Full Stack Developer

Aug 2018 - Apr 2019, Rio de Janeiro, Brazil

At this startup project we aimed to deliver a platform that would innovate the experience of attending festivals. Working in a TDD format, helped the development of an e-commerce website ensuring the quality of a service that would attend thousands of concurrent users.

Ilumno / Software Engineer Intern

Aug 2017 - Jul 2019, Rio de Janeiro, Brazil

Part of an initiative linked to the study of learning styles, we had the ambition to develop a dynamic environment to explore its concepts. The final product was an online questionnaire adaptable to the student's profile.

Veiga de Almeida University / Tutor

Jul 2016 - JUL 2019, Rio de Janeiro, Brazil

Helped with the teachings of algorithm and programming classes to students just arriving at university.

Education

Veiga de Almeida University / Bachelor of Science (BS), Computer Science

Aug 2015 - Jun 2020, Rio de Janeiro, Brazil

Thrived in the academic environment, where I was able to meet many of my current friends and coworkers. By engaging with tutoring for freshmen I was able to do networking, which would eventually help me find future professional job positions.

Certifications

AWS Certified Cloud Practitioner / Amazon Web Services (AWS)

Apr 2023 - Apr 2026

Earners of this certification have a fundamental understanding of IT services and their uses in the AWS Cloud. They demonstrated cloud fluency and foundational AWS knowledge. Badge owners are able to identify essential AWS services necessary to set up AWS-focused projects.
